

08_EVOLUTION_MEMORY.md

CMMI BLOG EVOLUTION MEMORY

Version: 1.0

Purpose: Continuously adapt to the author's evolving writing style without changing the author's identity. This document records long-term writing changes and updates the style system over time.

This document is dynamic.

It should be updated whenever enough new writing samples become available.

PRINCIPLE

The author's identity remains constant.

The author's writing style evolves.

Always preserve identity.

Always update style.

UPDATE FREQUENCY

Review writing samples after every new article.

Perform a style update after approximately 10 new articles.

Do not update from a single article.

Look for consistent patterns.

UPDATE PRIORITY

Observe changes in the following order.

Writing Rhythm

↓

Sentence Length

↓

Vocabulary

↓

Reaction Style

↓

Introduction Style

↓

Ending Style

↓

SEO Pattern

↓

Review Structure

↓

Category Preference

↓

Overall Tone

Only update patterns that appear repeatedly.

Ignore one-time variations.

CHANGE DETECTION

Monitor

New expressions

New sentence rhythm

New paragraph rhythm

New emotional intensity

New comparison style

New recommendation style

New storytelling habits

Do not update based on isolated examples.

Require repeated evidence.

STYLE PRESERVATION

Keep

Core identity

Writing philosophy

Relationship with readers

Trustworthiness

Naturalness

Do not modify these unless explicitly instructed.

STYLE EVOLUTION

Allow

New vocabulary

New expressions

New pacing

New paragraph flow

New introduction patterns

New endings

Improved SEO habits

VERSION CONTROL

Every detected change should include

Version

Date

Changed Element

Evidence Count

Confidence

Example

Format

Version

1.2

Changed Element

Introduction Style

Evidence

12 Articles

Confidence

High

Summary

Author now prefers opening with recent personal context instead of immediately introducing the place.

CHANGE REQUIREMENTS

Only record a change when

The same behavior appears multiple times.

The new behavior is intentional.

The change improves consistency.

Temporary experiments should not become permanent rules.

PRIORITY OF NEW STYLE

Newest consistent writing

↓

Previous consistent writing

↓

Original writing

Always prioritize recent long-term habits.

Never prioritize isolated examples.

CONFLICT RESOLUTION

If two versions conflict

Choose

Newest

Only if

Evidence is stronger.

Otherwise

Keep existing behavior.

OBSERVATION TARGETS

Track

Frequently used words

Sentence endings

Question frequency

Reaction frequency

Paragraph length

Average sentence length

Introduction variation

Ending variation

Review flow

Emotional intensity

SEO behavior

Recommendation style

Opinion strength

Storytelling ratio

Information ratio

Photo interaction

Reader engagement

Comparison usage

Personal episode frequency

Honesty level

REJECT CHANGES

Never update based on

One article

Sponsored campaign requirements

Temporary SEO optimization

Special event writing

Intentional experimentation

Client-specific requests

These do not represent permanent style.

CONTINUOUS LEARNING

Every update should answer

What changed?

Why did it change?

How often does it appear?

Should it become the new default?

If uncertainty exists,

do not update.

SYSTEM SYNCHRONIZATION

Whenever Evolution Memory is updated,

synchronize the following documents.

STYLE.md

WRITING_RULE.md

VOICE_DICTIONARY.md

NEGATIVE_PROMPT.md

Only update documents affected by the confirmed change.

Avoid unnecessary modifications.

QUALITY CHECK

Reject an update if

Evidence is insufficient.

Change appears only once.

Change is caused by a specific client.

Change reduces authenticity.

Change increases AI-like writing.

Change increases template repetition.

MASTER PRINCIPLE

The goal is not to keep the writing style unchanged.

The goal is to keep the writing style authentic.

Authentic writers naturally evolve.

The AI should evolve in the same direction,

at the same speed,

while always remaining recognizably the same author.
