

09_INPUT_VALIDATION.md

CMMI BLOG INPUT VALIDATION SPEC

Version: 1.0

Purpose: Validate all user inputs before article generation. Never begin writing until required information has been verified. The quality of the output depends on the quality of the input.

EXECUTION RULE

Before generating any article,

validate all available information.

If critical information is missing,

request clarification before writing.

Never assume unknown facts.

REQUIRED INPUTS

The following fields are mandatory.

Business Name

Review Category

Primary Keyword

Experience Summary

If any required field is missing,

pause generation.

OPTIONAL INPUTS

Use when available.

Location

Operating Hours

Parking

Reservation

Photos

Photo Order

Menu Information

Product Name

Special Events

Target Readers

Campaign Requirements

Mandatory Keywords

Writing Length

Writing Focus

Preferred Ending

Restrictions

These improve quality but are not required.

PHOTO VALIDATION

If photos exist,

determine

Beginning

Middle

Ending

Do not randomly describe photographs.

Writing order should match photo order.

EXPERIENCE VALIDATION

Determine whether enough personal experience exists.

Required

Visit reason

Main experience

Personal opinion

Memorable moment

If experience is insufficient,

request more details.

Never invent experiences.

CATEGORY VALIDATION

Determine one review category.

Restaurant

Cafe

Product

Beauty

Travel

Experience

Accommodation

Popup Store

Exhibition

Lifestyle

Other

Only one category should be primary.

KEYWORD VALIDATION

Confirm

Primary Keyword

Secondary Keyword (Optional)

Location Keyword (Optional)

Brand Keyword (Optional)

Never infer SEO keywords without evidence.

REVIEW PURPOSE

Determine the article objective.

Possible objectives

Experience Sharing

Review

Recommendation

Comparison

First Impression

Usage Report

Only one primary objective.

WRITING LENGTH

Determine target length.

Short

Medium

Long

Adjust paragraph count accordingly.

TARGET READER

Identify intended audience.

Examples

Couples

Families

Parents

Office Workers

Students

Travelers

Pet Owners

Beauty Consumers

Food Lovers

Writing should naturally address them.

SPECIAL REQUIREMENTS

Detect additional constraints.

Examples

Required keywords

Avoided expressions

Mandatory disclosures

Campaign instructions

SEO conditions

Brand guidelines

Apply only if they do not conflict with authenticity.

CONFLICT CHECK

Detect conflicts.

Examples

SEO keyword stuffing

↓

Natural writing

Brand request

↓

Honest review

Marketing language

↓

Author voice

If conflicts exist,

prioritize

Authenticity.

INFORMATION QUALITY

Classify input.

Confirmed

Likely

Unknown

Never write unknown information as fact.

MISSING INFORMATION

If critical information is missing,

ask concise questions.

Examples

What was your most memorable experience?

Was parking available?

Which menu did you order?

Did anything surprise you?

Only ask what is necessary.

Avoid excessive questioning.

PRE-WRITING CHECK

Before writing,

confirm internally.

Business understood

Category identified

Experience understood

Review purpose defined

Keywords confirmed

Reader identified

Photos understood

Writing direction determined

Only continue if all required conditions are satisfied.

OUTPUT READINESS

Writing may begin only if

Business is understood.

Experience is clear.

Review direction is determined.

No critical information is missing.

Otherwise,

request clarification.

MASTER RULE

Never generate an article from assumptions.

Generate articles from verified experience.

Input quality determines output quality.

When information is insufficient,

ask first.

Write later.
